Instructor	Text Responses
	Question: Use this space to comment on the instructor's use or non-use of technology.
	For in-class technology we use Moodle to access our class website which is through Wordpress. We also use in-class technology to access our class notes through a word document which is linked to our class website. For out of class technology a lot of it is the same as in-class technology except that we also use outlook to turn in our papers.
	The instructor used technology very efficiently in this class.

	Dr. King used his website to give us easily accessible information about the course and our assignments.
	Professor used his own website but always had everything uploaded and had very detailed notes. No complaints at all.
	The readings assigned through Moodle were useful in introducing the next style of writing we were to do. We watched a few videos in class which helped better our understanding of the material. We also had a class in the library where we learned how to utilize the university's databases which were helpful when conducting research.
	We were always allowed to use technology in class which helps a lot
	Our class website was very important in figuring out what we were doing for the class and what reading needed to be completed. All the reading, assignments, and notes were on the class website so you never had to go scrolling and searching.
	He used it to go over assignments and showed us how to use a blog website for an essay and he also gave feedback through email.
	Question: Final Comments: use this space to provide any additional comments about the course, the instructor or both. Please feel free to comment on areas such as: the instructor's engagement of student interest, the instructor's responsiveness to students, the syllabus, the readings, the exams, the assignments, the instructor's evaluation of your work, the online learning technology.
	Dr. King's engagement with the students is amazing. Any time you have a question he is always willing to answer you and to find an answer. When we have class discussions Dr. King always goes and talks to at least one table of people to see what their thoughts were and to see where their thinking went. In this course the syllabus was really straightforward and extremely helpful and informative and once we turned in our work Dr. King's response was relatively fast and would always give quite a lot of feedback. I have enjoyed this course a lot and would recommend Dr. King to future students.
	This has by far been my favorite instructor for any English or writing course in my life. He does an amazing job relating to students and still getting the work done while also being understanding.
	Every class Dr. King would always include is in educational discussions, prompting us to engage with our classmates and the class as a whole.
	Course was very engaging and was a good balance between writing and discussion which is equally important.
	The instructor was quickly responsive to me all of the time. I feel like he did a good job at keeping students engaged even though some of the readings weren't super interesting
	I found this course helped improve a bunch of the issues in my writing process that 101 didn't quite seem to achieve. I would recommend Dr. King to anyone looking for a 102 professor.
	Loved the grading of evaluating yourself and reflecting on your work to determine what grade you think you deserve in the class. All the reading was helpful for the in-class discussions as well as in our papers.
	Do not change a thing. You made English class engaged and fun. Great job and thank you.
	Question: Use this space to comment on the instructor's teaching methods lecture notes, podcasts, discussion forums, group work, etc..
King	In class we would go over the readings we had for class and then we would incorporate what those readings were about in writing activities. These writing activities were also useful because they helped prepare us for the paper we might have been writing
King	Dr. King is a great professor. He seems like he loves teaching and his students which makes coming to his class a lot more enjoyable.
King	Teaching methods were about what you would expect. I had no issues with the way that topics were covered.
King	He had a notes handout for every day which kept things in order very well
King	Some of the in-class writings seemed redundant but other than that his teaching style is very engaging. I was never bored in this class.

King	Dr. King incorporated a variety of teaching methods into the course. I found the group work to be particularly effective in the form of peer review. We also had smaller discussions with our tables before a larger group discussion with the whole class, which was always helpful.
King	Every class we did writing assignments, which
King	A schedule on the website
King	Mainly discussed the reading and notes handout during the class. Used lots of writing and sharing to groups which was helpful in reflecting.
King	He used a lot of example and gave us examples all the time.
